Dear Sponsors,

Thank you for continued support of the rare disease community and your passionate endeavor to discover treatments for patients and families affected by devastating neurodegenerative diseases like *KIF1A Associated Neurological Disorder*, or KAND.

[KIF1A.ORG and Boston Children's Hospital](#) are proud to be collaborating with first responders from New York and Boston to bring families, patients, and members of the medical community together – all to benefit children living with devastating rare diseases. This exciting family event is like no other. Elite first responder hockey teams from New York and Massachusetts Fire, EMS, and Law Enforcement join forces at [Warrior Ice Arena](#) in Boston to support children suffering from rare and catastrophic diseases, like KAND. To learn about this important event, and how you can make an impact please click here: [BCH Charity Hockey Game](#). Learn more about our mission to bring treatment and cures to children suffering from KAND by visiting [this page on our website](#), which describes the disease, and our collective goal to discover treatment and provide care for pediatric rare diseases like KAND.

[Our First Responder & Celebrity Ice Hockey Game](#) kicks off on **October 28, 2023**. This event is a special opportunity for all involved to make a difference and have tons of fun with family and friends. Activities for the whole family will be happening throughout the day as you watch some of the strongest Fire Department and Law Enforcement hockey teams faceoff to support *KIF1A Associated Neurological Disorder* and rare neurological diseases.

Thank you for joining others in supporting this event, and for the significant impact your generous support has on every family and child living with a devastating, and often fatal rare disease. Your passion and commitment are critical as we work to discover treatments and cures. We're proud to partner with local and global rare disease communities as we support families and patients with significant medical challenges and no available treatments.

On behalf of families and patients around the world, our heartfelt thanks for your support. Sponsorship opportunities are attached below. Please reach out with any questions and see you on the ice!

Sincerely,

Kelly Friedman
