

CHARITY HOCKEY GAME FOR RARE DISEASE

THIS SATURDAY, OCTOBER 28

Warrior Ice Arena

90 Guest St, Boston, MA 02135

11:30 am: Fans and friends are invited to watch the Boston Bruins practice!

Watch the Bruins practice, check out the raffle items and meet others in the rare disease community.

1:45 pm: Find your seat and get ready for the special opening ceremony!

Time to take your seats, don't be late! Dr. Wendy Chung, Chief of Pediatrics at Boston Children's Hospital, will say a few words about our hope for treatments and innovation, which is why we're all here! Joining her will be children and siblings affected by rare disease to face off as Dr. Chung drops the ceremonial puck for the kids!

2:00 pm: Our National Anthem

Join us as another hometown hero, Todd Angily, bless us with his singing of our National Anthem.

2:15 pm: Game #1 Starts

Buckle up and get ready for the opening game! Firefighters, police officers, and EMT's from the Hamptons First Responder Hockey Team take on the Iron Horse Hockey Club. Throughout the action enjoy concessions, face painting and other fun family activities.

4:00 pm: Community Skate

Don't worry if you don't have skates, we have them for you! Join a few members of your favorite team for a skate.

4:45 pm: Game #2 Starts

The Battle of the Badges! Watch the hometown heroes of The Boston Fire Hockey Club faceoff against the tough and talented Suffolk County Sheriff's Hockey Team. Between periods one and two we will announce the raffle winners. Don't miss out on your chance to win some incredible raffle items!

6:15 pm: Skills Competition

Got skills? Well, these guys do. Watch players from all four teams bring it in the Skills Competition.

7:45 pm: The Championship Game

Don't miss this one. Winners of games one and two faceoff and skate their hearts out, all for patients and families suffering from rare pediatric diseases. This matchup will leave us all inspired to continue our mission to support research and discovery of treatments and cures in the Chung Lab at Boston Children's Hospital.

A FEW THINGS TO KNOW AHEAD OF THE EVENT

- This is a long, action-packed day, and people need breaks or even to take a rest at their hotel or home. That is AOK, your ticket is good for admission all day.
- Times listed above might change slightly as the day moves along.
- We realize some people in our community don't tolerate loud noise, or flashing lights. There will be no flashing lights or loud music, and one of the locker rooms can serve as a quiet room if somebody needs to just take a break.
- The Warrior Ice Arena concession shop will be open all day to purchase hot and cold food. We'll also have some snacks (not just Halloween candy!), so everybody will stay hydrated and happy. BUT if you do want to step outside the arena, there are plenty of great restaurants within walking distance. We will have a map of Boston and some of our favorite spots available upon your arrival.
- Parking: Boston driving and parking is always tricky. Ubers and taxis are easy, but here are parking options for Warrior Ice Arena for those who are driving:
<https://www.warrioricearena.com/parking/>
- There will be fun table activities in addition to the on-ice action.
- Warrior Ice Arena accessible, so if you get around differently, like lots of us, don't worry about accessibility at the event.
- There's a full team of volunteers and arena staff to help and answer questions!
- We are here for a reason, and that is to raise money to support the Chung Lab at Boston Children's Hospital as they endeavor to discover hopeful treatments and cures for children living with rare and devastating diseases. Nothing could be more important, so thanks for your generous support. [It's easy and fast to donate safely on your mobile phone or computer by CLICKING HERE.](#)
- This event is all about **community and fun**. Thanks to all our sponsors, teams, rare disease organizations and most important, thanks to *YOU* for... well, being you. While it might be New York's and Massachusetts' bravest and finest lacing them up on the ice, we know who the bravest people in the world are: children and families fighting rare diseases. We're here to give every person a shot on goal for hopeful treatments and cures.
